Key findings

- The US and Australia generate about **63%** of revenue. Canada is the smallest market at 6.7%.
- Road earns the most revenue (49.8%), and Mountain has the best margin (45.9%). Mountain-200 alone is **27%** of revenue.
- About **half of customers buy only accessories** (items under $100), and they contribute under 2% of revenue.
- On **1 July 2007** accessories first appear and repeat orders begin, so earlier periods aren't directly comparable.
